## FEATURE HIGHLIGHTS

### Efficient Rotax Engine

Now introducing two new engines with class-leading torque: The HD9 with up to 65 hp/59 lb-ft and the HD7 with up to 52 hp/41 lb-ft. The Can-Am Defender delivers a quieter cockpit with lower sound levels, built for long hours of work without complaint.

### Tow Like a Pro

The Can-Am Defender can tow up to 2,500 lbs (1,134 kg). Strong engine, profiled chassis cage, and compact, hard working suspension. Electronic Hill Descent Control and Work Mode driving assistance technology make it an effortless 2,500.

### Carry Any Cargo

With just one cargo box, the Can-Am Defender can hold 1,000 lbs (454 kg). That's thanks to a sturdy tailgate and smart storage, including easy to use LinQ quick-attach points. There's no itinerary this ride can't handle.

### Rugged XPS Tires and Steel Wheels

The Can-Am Defender sits on 14 inch steel wheels with 27 inch XPS Trail Force tires. These tires are built to perform in any condition. Because the weather shouldn't get in the way of a ride. It should encourage one.

### On-Demand Capability

Meet your new favorite coworker. Towing a trailer, blazing through sand, or seamlessly selecting Turf Mode, 2WD, 4WD, and back, the Can-Am Defender puts the power down on every terrain so it's the rock at your side workday after workday.

### Pick-Up Style Seats

Dual VERSA-PRO 40/20/40 bolster bench seat for additional lateral support, inspired by modern pick-up trucks. The passenger seats flip up and have underside hooks for extra storage. Contoured bench seats with better bolsters aren't just for comfort: they make it easier to get in and out.

### Central Skid Plate

Our plastic plates glide smoothly and silently over obstacles, offering great protection in rough terrain. How do they do it? The abrasion-resistant thermoformed High Molecular Weight Polyethylene (HMWPE) they're made of. It's lighter than aluminum. And tougher.

### Three Driving Modes

Drivers can select between three different driving modes on the Can-Am Defender: ECO, ECO Off and Work. Each one allows the driver to adapt to the riding conditions. Modes vary in speed, torque, and throttle response so riders can pick with purpose.

**FEATURE HIGHLIGHTS**

**Remarkable Rotax Engine**

Get a load of the HD9 & HD10 engines with industry-leading torque of up to 69 lb-ft. The Can-Am Defender XT delivers a quieter cockpit with low-intensity sound that's easy on the ears. This ride is built for long hours of hard work.

**Tow Like a Pro**

The Can-Am Defender XT can tow up to 2,500 lbs (1,134 kg). Strong engine, profiled chassis cage, and compact, hard working suspension. Add Electronic Hill Descent Control and Work Mode driving assistance technology to the mix, and that's an effortless 2,500.

**Carry Any Cargo**

With just one cargo box, the Can-Am Defender XT can hold 1,000 lbs (454 kg). That's thanks to a sturdy tailgate and smart storage, including easy to use LinQ quick-attach points. There's no itinerary this ride can't handle.

**Rugged XPS Tires and Steel Wheels**

The Can-Am Defender XT sits on 14 inch cast-aluminum wheels with 27 inch Maxxis Bighorn 2.0 (HD10) or XPS Trail Force (HD9) tires built to perform in any condition. Because the weather shouldn't get in the way of a ride. It should encourage one.

**Pick-Up Style Seats**

Dual VERSA-PRO 40/20/40 bolster bench seat for additional lateral support, inspired by modern pick-up trucks. The passenger seats flip up and have underside hooks for extra storage. Contoured bench seats with better bolsters aren't just for comfort. They improve the entrance and exit of the cab.

**Power Out of a Jam**

The 4,500-lb (2,041 kg) integrated winch with roller fairlead engages with the flick of a switch to dominate the most difficult tasks. Effective for vehicle recovery, hunting trips, clearing brush, and at the job site. It's one of the most powerful tools built into the Defender XT.

**Protection Where It Counts**

This model sports a full hard roof, XT front bumper, and High Molecular Weight Polyethylene (HMWPE) full skid plate. So no matter the terrain or weather, these beauties are protected from the worst of it.

<b>Trail Activ Smart Mode Module</b> <i>(Not illustrated)</i>	Models with Smart-Lok Differential	<b>715005284</b>
------------------------------------------------------------------	------------------------------------	------------------

- These modules allow you to add the Mud, Rock or Trail Activ Smart Mode to vehicles equipped with the Smart-Lok Differential Kit.
- Designed for aggressive riding delivering the ultimate cornering precision.
- When high engine torque and/or an increase in vehicle speed is detected, Smart-Lok will progressively engage the front end and maintain it engaged until throttle release or vehicle speed reduction.
- The progressive engagement allows for lower smooth steering effort.
- Only one Smart Mode Module can be installed at a time.
